Maximum group size	60 pupils for Year 1 and Year 2 45 pupils for Nursery and Reception Please ensure you meet the minimum adult : pupil ratio.

About the show

This is an interactive puppet show that uses storytelling to explore natural history and curriculum science in a fun and engaging way. It is suitable for pupils in Nursery (3+), Reception and Key Stage 1. During the show, pupils will be seated on the floor.

A note about behaviour

Our experienced puppeteer will lead your workshop. We work hard to make it an inspiring and inclusive experience for all pupils and we rarely have problems with behaviour. However, teachers have overall responsibility for the behaviour of their pupils and we expect you to support us with this where necessary. Pupils benefit significantly when teachers and accompanying adults also get involved in the workshops, so please do join in when appropriate.

National Curriculum links

This activity's content falls within the following statements, but does not necessarily support the breadth of content to which the statement refers.

Early Years Foundation Stage:

The early learning goals

Prime areas of **communication and language**:

- listening and attention
- understanding
- speaking

Prime areas of **physical development**:

- self-confidence and self-awareness
- managing feelings and behaviour
- making relationships

Specific areas of **understanding the world**:

- the world

Science

Key Stage 1 programme of study – Years 1 and 2

Working scientifically

- asking simple questions and recognising that they can be answered in different ways
- identifying and classifying
- using their observations and ideas to suggest answers to questions

Year 1 programme of study

Plants

Pupils should be taught to:

- identify and name a variety of common wild and garden plants, including deciduous and evergreen trees
- identify and describe the basic structure of a variety of common flowering plants, including trees.

Animals, including humans

Pupils should be taught to:

- identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals

- identify and name a variety of common animals that are carnivores, herbivores and omnivores

Year 2 programme of study

Living things and their habitats

Pupils should be taught to:

- identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other

Animals, including humans

Pupils should be taught to:

- notice that animals, including humans, have offspring which grow into adults
- find out about and describe the basic needs of animals, including humans, for survival (water, food and air)

English

Key Stages 1 and 2

Spoken language

Pupils should be taught to:

- listen and respond appropriately to adults and their peers
- maintain attention and participate actively in collaborative conversations, staying on topic and initiating and responding to comments
- speak audibly and fluently with an increasing command of Standard English
